

Dog

Walk on your hands and feet or your hands and knees.

Rabbit

Start in a crouch and hop forward moving your hands first then your feet.

Frog

Jump forward moving your feet then your hands.

Bear

Walk forward moving your right hand and foot then your left hand and foot.

Kangaroo

Hands together in front, jumping with both feet together.

Giraffe

Walk on tiptoes with arms overhead reaching up.

Worm

Start in a crouch and walk your hands forward until your body is straight then walk your feet forward to the hands.

Seal

Lying on your stomach, straighten your arms pushing the upper body off the ground. Pull your body forward with the arms while dragging the lower body.

Crocodile

Crawl on the stomach using all four extremities to move.

Crab

Seated on the floor with the arms behind the back, lift the trunk and walk using the arms and legs.

Duck

Walk in a crouched position with the hands on the hips.

Elephant

Walking on two feet, bend at the waist, grasp two hands together to represent the elephant's trunk and swing them as you walk.

Gorilla

Standing on two feet, bend over and grab your ankles with your hands and walk.

Wheelbarrow

Walk on hands with arms extended while another person holds their feet/ankles or knees.
