

# Coronavirus

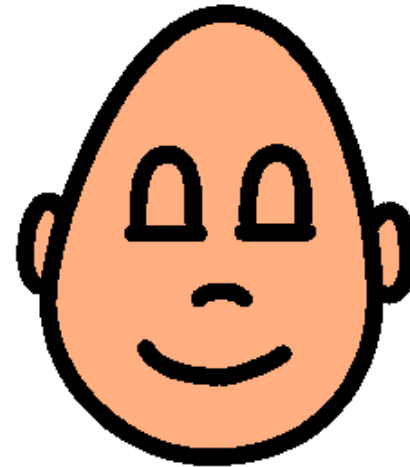

(COVID-19)

Coronavirus is like a bad cold.

Our world is trying to keep us safe from getting this cold.

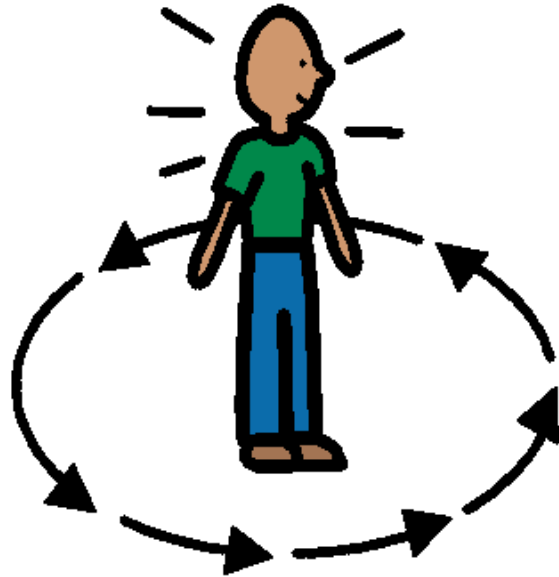

We need to wash our hands to stay safe.

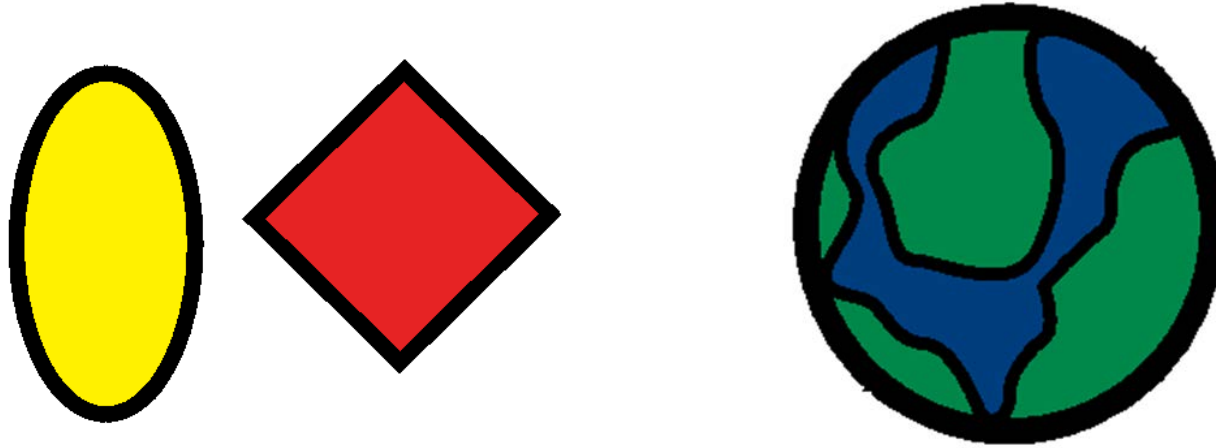

We need to cover our cough and throw away tissues.

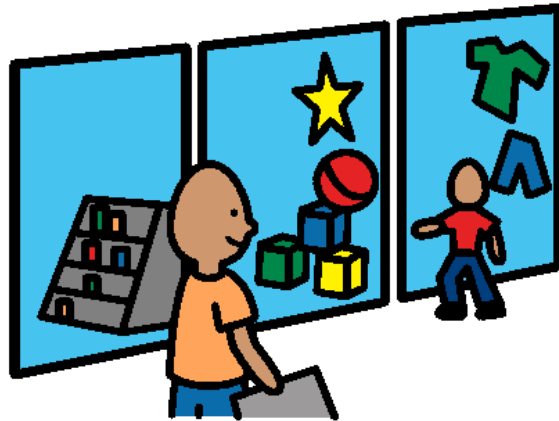

We need to stay away from other people if we feel unwell.

Things will be different in our world.

Shops may be closed.

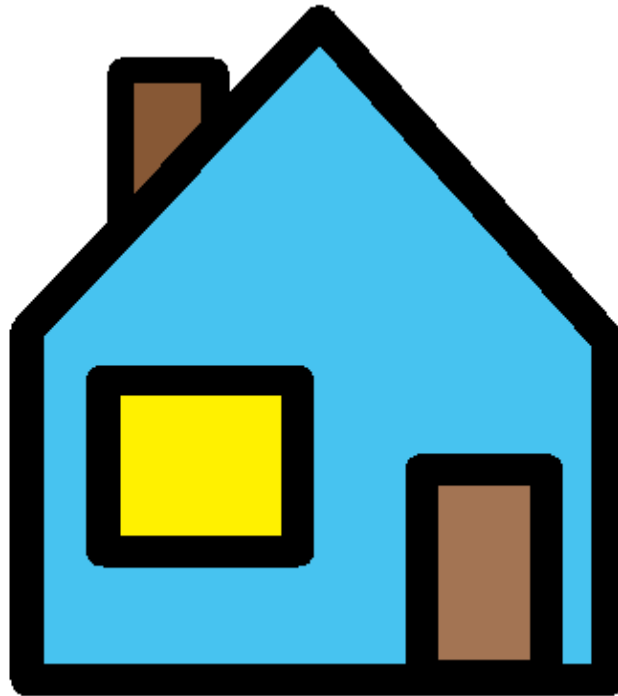

Schools may be closed.

Sporting events may be cancelled.

We may need to stay home more.

We will be okay.
