

Living at home project

Later in the year we will be thinking about when it is time for us to move out of home and how we might become more independent.

With this in mind I have created a project for you around the idea of living at home right now.

I hope you enjoy these activities and your work on this will help us later in the year.

Task 1

Who lives in your house?

Draw / write / list / take photos of the people that are in your family at home.

You may be someone who shares their time between different family members (and you may have two bedrooms because of this! Lucky you!) If this is you then you can either choose to do both houses you spend time at or you can just pick one to do.

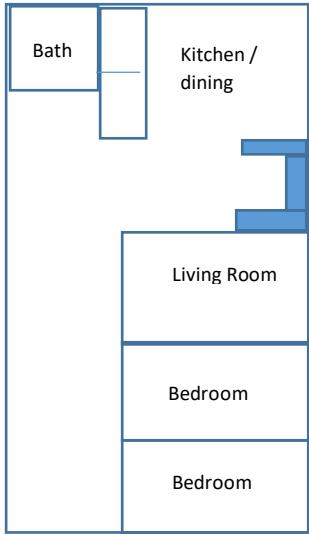

Under each drawing / picture / photo write the person's name and how they are related to you.

Make sure you include any pets you might have at home.

Task 2

Draw a layout of your house if you can. This might be quite tricky to do and if you live in a two story house you may need to draw each level separately.

I have given you an example below of a house. I just used squares, rectangles and lines to draw this.

Task 3

Furniture

Use the list below to cross or tick to show what furniture you have in your house.

Find a picture online to insert into the end column for each of these items.

	✓	X	Picture
Fridge			
Freezer			
TV			
Washing Machine			
Tumble Dryer			
Bed			
Sofa / couch			
Table			
Chairs			

Task 4

For each of the items in the list go online and research how much you could pay. Find three prices for each item (you can choose to look at one website like Harvey Norman or you can use different websites. Other suggestions would be JB HiFi, Freedom, The Good Guys but there are many more you can use).

	Price 1	Price 2	Price 3
Fridge			
Freezer			
TV			
Washing Machine			
Tumble Dryer			
Bed			
Sofa / couch			
Table			
Chairs			

Task 5

Choose two different colours.

Using the table above:

Use one colour to circle the lowest price for each item.

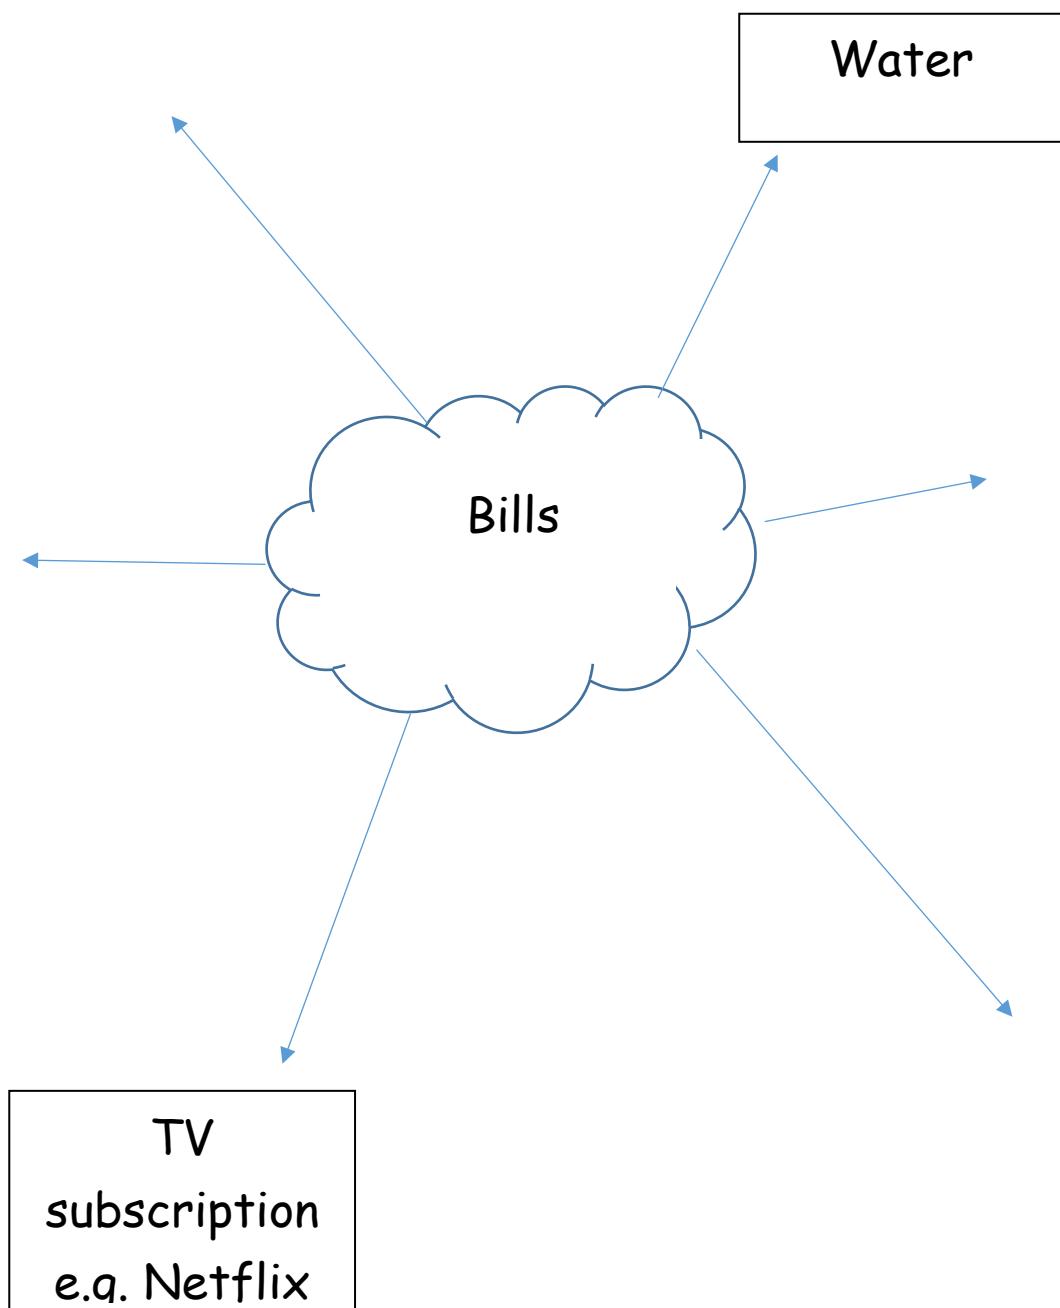

Use the other colour to circle the highest price for each item.

Task 6

Bills...

Use the thought shower below to record any things that you think you might need to pay for in a house...

A couple of ideas have already been added for you.

Task 7

Complete a comparison of the cost for TV streaming services from the companies below:

	Price per month	Free trial?	Any other information?
Netflix			
Apple TV+			
Amazon Prime			
Stan			
Foxtel			
Disney +			
hayu			

Task 8

Design your perfect house...

What rooms would you want in your house? List them below:

Draw a design of the perfect layout for your house...

Task 9

Below draw who you would love to share a house with...this could be a family member, a friend or a pet to keep you company.

Task 10

- Have a look on the consumer affairs Victoria website.
- Find the preparing your rental application page.
- Use this link if you need help to navigate to the right page:

<https://www.consumer.vic.gov.au/housing/renting/applying-for-a-rental-property-or-room/preparing-your-application>

- List three things you will need to make sure you have done from the application checklist.
