

# ART

Home Learning Term 2

Room 1, 3 & 4 (Adult support will be required for some steps in each project)

Choose an activity a week that you can complete at home. Upload to Seesaw when you have finished the activity. Do not worry if you do not have art materials at home. You can use Seesaw or Doodle Buddy to create your drawings. You can also use the camera on your iPad. If you do not have access to certain apps just do the activities that you can or make up your own activities to upload to Seesaw.

Creating art can help us to **relax** our mind. Put some music on and enjoy!

Students must check with an adult before going outside to look for leaves or other materials.
